OFFICE OF THE ACCOUNTANT-GENERAL, WEST BENGAL

NOTIFICATION

Subject: Instructions regarding bills payable by the Accountant-General, West Bengal, within the current financial year.

No. TM/748.—25th January 1960.—In order to ensure payment before the close of the financial year, all travelling allowance, contingent, grant-in-aid and other bills payable within the year should, as far as practicable, be presented at the counter of this office by the 16th March 1960. The words "To be paid on or before the 31st March 1960" should be written prominently in red ink on the top of each bill. In respect of charges actually incurred, or claims accruing on or after the 16th March, the bills should be presented with the utmost expedition without losing even a single day. It may be mentioned that during the last week of March this office is preoccupied with the passing of monthly bills, payable on the first working day of April.

2. Three clear working days are required by this office to complete all processes connected with the preaudit of a bill. As such, bills marked payable within the 31st March 1960 may be received by this office at best up to the 25th March 1960. It is only in very exceptional cases that the contingent bills involving large amounts and grant-in-aid bills may be received on the 28th, 30th and 31st March 1960 with the special permission of the Deputy Accountant-General (Admn.) in respect of bills payable from the counter of the Treasury Buildings and of the Senior Deputy Accountant-General in respect of bills payable from the counter of the other wing of this office, namely, at 4, Brabourne Road, Calcutta-1.

3. On the fourth working day from the date of presentation of a bill, the payee or his messenger should call at the delivery counter to demand payment. If for any reason payment cannot be obtained in that day, he should call on the next day, or on the second or third following day, should it become necessary. Any complaint regarding undue delay in payment should be lodged with the gazetted officer in charge of the section. No attempt should be made to get into direct touch with the sectional staff.

4. It should be particularly borne in mind that unpassed bills are not returned by post—they are required to be received back at the counter on surrender of tokens.

5. All possible care should be taken to see that the bills presented are free from defects and irregularities as there may not be time left for resubmitting the bills when once returned unpassed with audit objection.

6. It will facilitate the payment of bills if the following instructions are borne in mind:—

- (a) If the appropriation for the current year is likely to be or has already been exceeded, an additional appropriation should be obtained in time to meet the excess and the order sanctioning the additional appropriation attached to the bill.

(b) If any charge requiring sanction of a higher authority is claimed in a bill, a true copy of the sanction should be attached to it. As no payment can be made on the authority of copies of orders, the sanctioning authority should be requested to communicate the orders to this office in time.

(c) If no distribution of any appropriation has yet been made, formal orders of the competent authority sanctioning the distribution should be attached to the bill.

(d) A bill extract giving particulars of the major, minor and detailed heads of account to which the amount of the bill is chargeable and the designation of the officer controlling the expenditure should invariably be attached to bills.

7. Between the 16th and 31st March care should be taken to check the Bill Register every day with a view to receive all payments in good time.

8. As a special concession to payees, the Cash Payment and Cheque Delivery counters of this office will be kept open till 4-30 p.m. on the 31st March. No payment will be made after that hour.

9. Establishment Bills for March 1960 will be paid by this office on the 1st April 1960 instead of on the 31st March 1960.

Deputy Accountant-General (Admn.).

NOTIFICATION

Dated the 29th January 1960.

Whereas it has been made to appear to me that the present Grand Trunk Road running from north to south, commencing from the junction of Netaji Subhas Road, Rishra and the Grand Trunk Road and ending at Sastitola is too narrow to cope with steadily increasing motor and other vehicular traffic, and whereas it appears further that the old Grand Trunk Road, bifurcating at the junction of Netaji Subhas Road towards east and connecting the Grand Trunk Road at Sastitollah is wider than the present alignment of Grand Trunk Road and whereas it is expedient to device ways and means to minimise possibility of accidents at the new diversion, and whereas it is also necessary in the interest of public safety and convenience that all Calcutta bound motor and other vehicular traffic should pass through the old Grand Trunk Road, I, the District Magistrate of Hooghly, in exercise of powers conferred upon me under section 74 of the Motor Vehicles Act, do hereby order and prohibit all persons in charge of driving motor or any other vehicle proceeding from north to south (towards Calcutta) from using the new diverted portion of the Grand Trunk Road for the purpose.

Any person in charge of any driving vehicle in contravention of this order will be punishable under section 124 of the Motor Vehicles Act.

The order will have immediate effect.

NOTIFICATIONS

No. P.H./532/2R-29/59.—16th February 1960.—The following draft of rules which, in exercise of the power conferred by section 311 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Governor proposes to make and subject to which the Commissioners of the Konnagar Municipality (hereinafter referred to as the "Commissioners") may allow communication pipes to be laid down from the service pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on or after 21st March 1960, and any objection or suggestion with respect thereto which may be received by the undersigned before that date will be duly considered.

Draft Rules

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Chapter V of the Bengal Municipal Act, 1932, on the annual value of such holding, when such annual value is not less than Rs. 60, to lay down communication pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, shall apply to the Commissioners for the same on a printed form to be supplied, free of cost, at the Konnagar Municipal office, along with lay-out plans in duplicate showing details of water connection and its distribution.

2. A fee of Rs. 250 or such sum as may be determined hereafter shall be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply pipe or a common communication pipe laid in accordance with rule

3 below before any work relating to the connection is commenced, in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding shall have a separate connection to the municipal main supply pipe and extensions from the communication pipe and of one holding to another holding shall not be permitted:

Provided that—

(i) with the consent of the Commissioners at a meeting, connections to two or more holdings may be permitted from a common communication pipe which shall be laid in a street or any common passage and a stop-cock and a meter as provided for in rule 7 shall be fixed on the connection to each holding;

(ii) no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required shall pay the entire cost of the connection, including the cost of supplying and fixing of the fittings referred to in rule 7, and shall also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and of such other works, as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given shall, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, be carried out either by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) All the works under sub-rule (1) shall be carried out under the supervision of a municipal officer appointed by the Commissioners in this behalf, and no connection shall be made with the municipal main supply pipe except at such time as may be appointed and in such position as may be selected by a municipal officer authorised in this regard.

7. A holding connection shall comprise the following parts or fittings:—

- (a) a brass or gun-metal ferrule inserted in the main supply pipe;
- (b) a galvanized iron communication pipe from the ferrule to the meter;
- (c) a stop-cock and its surface box;

- (d) a meter;
- (e) service pipes from the stop-cock to the taps; and
- (f) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them at a meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he shall present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be approved and stamped, and samples thereof may be purchased and placed at the municipal office among the standard fittings.

9. The holding connection, when fitted in position, shall be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. (1) The size of the ferrule and the diameter of the communication pipe referred to in clauses (a) and (b) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual valuation of holding.		Size of ferrule.	Diameter of communication pipe.	Number of taps.

(2) Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screw Down". Every tap shall be at least 3 feet above the surface of the ground beneath.

11. (1) On every communication pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to which water is required to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

14. (1) The Commissioners shall depute an authorised person to read every meter not less than once in a quarter, and shall give notice to the occupier of the holding at least twenty-four hours before the reading is recorded.

(2) In the event of a meter ceasing to register the quantity of water consumed, the consumption of water during the period the meter had stopped to register shall be calculated on the basis of the average consumption of water of the holding for four quarters immediately preceding.

15. (1) Every owner or occupier of any holding, in respect of which a connection has been made, under these rules, shall be entitled to a supply of

(a) two thousand gallons of water per quarter for each rupee, and

(b) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

- (f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with water-supply not authorised by these rules;
- (g) if the pipes, taps, ball-cocks, cisterns or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or in a state of disrepair:

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

(2) In the circumstances contemplated in clause (d) of sub-rule (1) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording reasons in writing.

OFFICE OF THE ACCOUNTANT-GENERAL, WEST BENGAL

NOTIFICATIONS

Subject: Instructions regarding bills payable by the Accountant-General, West Bengal, within the current financial year.

No. TM/748.—25th January 1960.—In order to ensure payment before the close of the financial year, all travelling allowance, contingent, grant-in-aid and other bills payable within the year should, as far as practicable, be presented at the counter of this office by the 16th March 1960. The words "To be paid on or before the 31st March 1960" should be written prominently in red ink on the top of each bill. In respect of charges actually incurred, or claims accruing on or after the 16th March, the bills should be presented with the utmost expedition without losing even a single day. It may be mentioned that during the last week of March this office is preoccupied with the passing of monthly bills, payable on the first working day of April.

2. Three clear working days are required by this office to complete all processes connected with the preaudit of a bill. As such, bills marked payable within the 31st March 1960 may be received by this office at best up to the 25th March 1960. It is only in very exceptional cases that the contingent bills involving large amounts and grant-in-aid bills may be received on the 28th, 30th and 31st March 1960 with the special permission of the Deputy Accountant-General (Admn.) in respect of bills payable from the counter of the Treasury Buildings and of the Senior Deputy Accountant-General in respect of bills payable from the counter of the other wing of this office, namely, at 4, Brabourne Road, Calcutta-1.

3. On the fourth working day from the date of presentation of a bill, the payee or his messenger should call at the delivery counter to demand payment. If for any reason payment cannot be obtained in that day, he should call on the next day, or on the second or third following day, should it become necessary. Any complaint regarding undue delay in payment should be lodged with the gazetted officer in charge of the section. No attempt should be made to get into direct touch with the sectional staff.

4. It should be particularly borne in mind that unpassed bills are not returned by post. They are required to be received back at the counter on surrender of tokens.

5. All possible care should be taken to see that the bills presented are free from defects and irregularities as there may not be time left for resubmitting the bills when once returned unpassed with audit objection.

6. It will facilitate the payment of bills if the following instructions are borne in mind:—

- (a) If the appropriation for the current year is likely to be or has already been exceeded, an additional appropriation should be obtained in time to meet the excess and the order sanctioning the additional appropriation attached to the bill.
- (b) If any charge requiring sanction of a higher authority is claimed in a bill, a true copy of the sanction should be attached to it. As no payment can be made on the authority of copies of orders, the sanctioning authority should be requested to communicate the orders to this office in time.
- (c) If no distribution of any appropriation has yet been made, formal orders of the competent authority sanctioning the distribution should be attached to the bill.
- (d) A bill extract giving particulars of the major, minor and detailed heads of account to which the amount of the bill is chargeable and the designation of the officer controlling the expenditure should invariably be attached to bills.

7. Between the 16th and 31st March care should be taken to check the Bill Register every day with a view to receive all payments in good time.

8. As a special concession to payees, the Cash Payment and Cheque Delivery counters of this office will be kept open till 4-30 p.m. on the 31st March. No payment will be made after that hour.

9. Establishment Bills for March 1960 will be paid by this office on the 1st April 1960 instead of on the 31st March 1960.

A. N. BISWAS,
Deputy Accountant-General (Admn.).

Subject: Deduction of tax from salaries at the time of payment—Liability under section 18(7) of the Indian Income-tax Act for non-deduction of tax at source.

No. TM/749.—6th February 1960.—It was recently brought to the notice of the Government of India that in the case of one of the employees who was a foreigner and who left India, neither the paying officer nor the Indian Supply Mission had recovered the full amount of tax due from the assessee and this resulted in loss to Government. The paying officers are under a statutory obligation to deduct tax at source from all salaries under section 18(2) of the Indian Income-tax Act and failure to deduct tax at source will make the paying officer himself an assessee in default in respect of such tax under section 18(7) of the Act.

The above statutory provisions are brought to the notice of all disbursing officers (Central and State) under the audit control of this office and all Treasury/Sub-Treasury Officers in West Bengal for guidance.

- (c) Such leave may be combined with leave of any other kind.
- (d) Such leave may be granted more than once if the disability is aggravated or reproduced in similar circumstances at a later date, but not more than twenty-four months of such leave shall be granted in consequence of any one disability.

23. Grant of leave to municipal officers or servants engaged on contract shall be governed as follows:—

- (i) Where the contract is for one year or less, earned leave admissible shall be at one-twenty-second of the period spent on duty. Though ranking as earned leave, this may be granted only on medical certificate, and if subsequently it becomes necessary to grant the municipal officer or servant further leave, after the earned leave has been exhausted, leave on medical certificate may be granted to him subject to the condition that the total period of the two kinds of leave does not exceed one-eleventh of the period spent on duty.

If the municipal officer or servant serves in a Vacation Department, earned leave shall not be admissible, but he may be granted, if absolutely necessary, leave on medical certificate to the extent of one-twenty-second of the period spent on duty.

(ii) Where the contract is for more than one year but not more than five years, leave on medical certificate may be allowed in addition to earned leave under sub-rule (1) of rule 8 of these rules subject to a maximum of four months in all during the period of the contract. In addition, extraordinary leave may be granted in special circumstances when no other leave is admissible subject to a total maximum limit of three months in respect of such leave. If the municipal officer or servant serves in a Vacation Department, earned leave will not be admissible.

(iii) Where the contract is for a term longer than five years or an original contract for five years or less is extended so as to make the total period of contract longer than five years, leave admissible to a permanent municipal officer or servant under these rules may be allowed, subject to the restrictions that no leave on private affairs shall be granted and that the leave on medical certificate will be limited to six months in all. In the case of extension of contract to a period longer than five years the municipal officer or servant shall be credited with the earned leave that would have been admissible had the contract been initially one of more than five years, diminished by any earned leave already taken, and leave on medical certificate, if any, already taken shall count against the six months' limit prescribed.

(iv) Where the contract is for an indefinite period, or an original contract for a definite period is extended for an indefinite period the rules regarding grant of leave to permanent municipal employees except rule 16 shall apply. In the latter case the municipal officers or servant shall be credited with the earned leave that would have been admissible had the contract been initially one for an indefinite period, diminished by any earned leave already taken and leave on medical certificate if any, already taken, shall count against the limit prescribed in sub-rule (1) of rule 14.

(v) In the case of a municipal officer or servant falling under clauses (ii) to (iv) above, earned leave may be granted after the expiry of the contract only when it has been applied for during the period of the contract and refused owing to the exigencies of the public service. A municipal employee whose service is dispensed with on the ground of ill-health may be permitted to take all earned leave due to him before his service is terminated.

(vi) The leave salary during leave taken under the above clauses will be regulated as follows:—

- (a) A municipal officer or servant on earned leave is entitled to leave salary equal to his average pay.
- (b) A Municipal officer or servant on leave on private affairs or on medical certificate is entitled to leave salary equal to half his average pay subject in either case to a maximum of Rs. 750.

Note.—“Average pay” means here the average monthly pay earned during the twelve complete months preceding the month in which the event occurs which necessitates the calculation of average pay.

(c) A municipal officer or servant or extraordinary leave is not entitled to any leave salary.

(d) A municipal officer or servant initially engaged on contract becomes subject to the leave rules regarding permanent municipal employees on his being taken into permanent employment after the expiry of his contract. In such a case the municipal officer or servant shall be credited with the earned leave that would have been admissible had his previous duty been duty as an officer in permanent employ diminished by any earned leave already taken, and leave on medical certificate if any already taken, shall count against the limit prescribed in rule 14.

24. (a) Earned leave is not admissible to a municipal officer or servant in permanent employ serving in a Vacation Department in respect of duty performed in any year in which he avails himself of the full vacation.

(b) The earned leave admissible to such a municipal officer or servant in respect of any year in which he is prevented from availing himself of the full vacation is such proportion of 15 days' earned leave if he is in inferior service and 30 days' earned leave if he is in superior service, as the number of days of the vacation not taken bears to the full vacation:

Provided that if in any year he is prevented from availing himself of any part of the vacation, earned leave is admissible to him in respect of that year in accordance with the provisions of rule 6 or 7, as the case may be.

(c) Vacation may be taken in combination with or in continuation of any kind of leave under these rules, provided that the total duration of vacation and earned leave taken in conjunction, whether the earned leave is taken in combination with or in continuation of other leave or not, shall not exceed 90 days in the case of a municipal employee governed by rule 6 or 30 days if he is governed by rule 7.

(d) Earned leave is not admissible to a municipal officer or servant serving in a Vacation Department who is not in permanent employ.

By Government order No. 5300-I.R./D/111-109 (D)/56, dated the 12th December 1956, the above industrial dispute was referred under section 10 of the Industrial Dispute Act to the Fifth Industrial Tribunal for adjudication. The only issue referred

for adjudication was whether the workmen were entitled to any profit sharing bonus for the year 1954-55 and, if so, what should be the quantum of such bonus. The parties filed written statements before the said Tribunal, and thereafter on 20th February 1957 the Company made an application praying for stay of further proceedings on the ground that an adjudication regarding bonus for two previous years was pending in appeal before the Supreme Court and that some of the points which were awaiting decision before the Supreme Court would also arise for decision in the present reference. This application was not opposed and by an order, dated 14th May 1957, the said Tribunal stayed the hearing of the reference till the disposal of the appeal pending before the Supreme Court. The decision of the Supreme Court was given on the 6th May 1959 and it was reported in the Labour Law Journal, July, 1959 number (at page 9). The order for stay was thereupon vacated and the reference was set down for hearing. Thereafter by Government order No. 4349-I.R./IR/111-287/59, dated the 8th September 1959, the reference was withdrawn from that Tribunal and transferred to this Tribunal for adjudication under section 33B of the Industrial Disputes Act for the purpose of speedy disposal. The case was heard in this Tribunal from 13th January 1960 to 21st January 1960 and 6 witnesses were examined on behalf of the two Unions and 2 witnesses on behalf of the Company. The case was then argued from 2nd February 1960 to 8th February 1960 when the hearing was concluded.

The Titaghur Paper Mills Co. Ltd., which will hereafter be referred to as the Company, owns two Paper Mills, viz., Mill No. 1 situated at Titaghur and Mill No. 2 situated at Kankinara. The workmen of the two Mills are represented by two different Unions—the Bengal Kagazkal Mazdoor Union representing the workmen of Mill No. 2 and the Paper Mills Employees' Union representing the workmen of Mill No. 1. They filed one joint written statement but they have contested the case separately and have not made common cause in many matters. The only issue for decision in this case is, as already stated, the issue of profit bonus for 1954-55, the Union's claim being for payment of two month's wages as such bonus. The Company never paid any profit bonus in the past but it has introduced a production bonus scheme which is in operation. The workmen demanded profit bonus for the first time in 1953 for the financial years 1950-51 and 1951-52 and also asked for revision of the production bonus scheme and that was the dispute which ultimately went to the Supreme Court on appeal. In that case an objection was taken by the Company that the workmen were not entitled to claim profit bonus when a production bonus scheme was already in operation as production bonus was a substitute for profit bonus but this objection was negatived by the Supreme Court. The same objection was taken by the Company in its written statement in the present case but in view of the decision of the Supreme Court it was not pressed. The Company's main plea before me has been that the workmen are not entitled to any profit bonus because on a proper application of the Full Bench

formula laid down by the Labour Appellate Tribunal for calculation of the net surplus for awarding profit bonus it will be found after deduction of prior charges and the annual rehabilitation cost that there is no surplus and that on the other hand there is a deficit. It is also stated by the Company that the workmen caused a diminution in the profits of the Company by launching an illegal strike in Mill No. 1 for about 3 months and in Mill No. 2 for 15 days in 1954 and could not therefore claim any bonus for the year.

There is no dispute between the parties that the Full Bench formula for calculation of net surplus should be applied in this case and that the items of prior charges, according to that formula, should be deducted from the net profit. The Company has produced its balance sheets for the year 1954-55. The practice of the Company is to prepare a balance sheet for every six-monthly period and so two balance sheets have been produced—one for the half-year ending on 30th September 1954 and another for the half-year ending on 31st March 1955. So in order to find out the amounts of the net profit and the prior charges for the whole year the figures in the two six-monthly balance sheets will have to be added up. The amount of net profit carried to the profit and loss account is Rs. 28,21,861 for the first half-year and Rs. 61,87,919 for the second half year and the total is Rs. 90,09,780 or 90.09 lakhs in round figures. This figure has not, however, been accepted as the correct figure of net profit by the two Unions. Shri P. K. Sanyal contended on behalf of the Kagazkal Mazdoor Union that to this sum should be added certain amounts shown as reserves and provisions at page 10 of either balance sheet—the total of such amounts being taken to be Rs. 47.35 lakhs. I find no justification for this contention. It is only the net profit which has been transferred to the profit and loss account after making all provisions for reserves that is material for the calculation of net surplus and the addition of the sums kept apart as reserves and provisions to such net profit is not justified by the Full Bench formula. No authority could be shown for such a procedure and Shri Roy Mukherji on behalf of the other Union did not advance such a claim. Shri Roy Mukherji, however, pointed out that at page 17 of the balance sheets of both the half-years certain items of interest and profit had been shown in the profit and loss account amounting to Rs. 3,88,655 and he contended that this amount should be added to the above figure of net profit.

These items are:

- (1) Interest on investments—Rs. 99,413 + 77,338 = Rs. 1,76,751.
- (2) Interest—Rs. 1,87,075 + 7,804 = Rs. 1,94,879.
- (3) Scrip fees—Rs. 23 + 19 = Rs. 42.
- (4) Profit on disposal of fixed assets and security—Rs. 8,993 + 7,990 = Rs. 16,983.

On behalf of the Company Shri K. B. Basu contended that these items did not represent trading profits of the Company but were extraneous profits to which the labour did not make any contribution and that as such they could not be included for the purpose of calculation of bonus. With regard to the item described as interest in the balance sheet

for the first half year which amounts to Rs. 1,87,075 it has been explained by the Company's witness Shri Kanak Ghosh who is one of the Accountants of the Mills that this item represents interest on current accounts and also interest on excess advance payments made under section 18A of the Indian Companies Act. He could not, however, give the exact figures of interest under the two heads. The other heavy items represent interest on investments. The question now is whether these items can be considered to be extraneous profits to be excluded in the calculation of net surplus under the Full Bench formula.

The question of what is or is not extraneous profit has been fully discussed by the Supreme Court in the recent case of Tata Oil Mills Co. and their workmen reported in 16 F.J.R. 349. The test laid down in that case for deciding whether a particular item is an extraneous profit or not is to see how the profit was earned and whether or not it was earned in the normal course of business. If it was earned in the normal course of business it would not be an extraneous profit even though direct participation of the workmen in earning that profit had not been established. Judged by this test the items representing interest whether on investments or on current accounts in the Banks cannot be extraneous profit as they were earned in the normal course of business. Even interest on excess advance payments of income tax was earned normally and it cannot be said to be a windfall like refund of income tax. The item of scrip-fees has not been explained. It is, however, a very small item and can be ignored. The item of profit on disposal of fixed assets and security is an extraneous income, according to the above decision of the Supreme Court, and should be excluded. So the total net profit for the purpose of calculation of net surplus should be taken to be Rs. 93.80 lakhs made up of Rs. 90.09 lakhs and Rs. 3.71 lakhs representing interest as above.

The Company has deducted from the net profit a sum of Rs. 8.72 lakhs as expenses representing the commission of managing agents, allowances, law charges, Directors' remuneration, etc., as shown at page 16 of the balance sheets of the two half-years. There was no dispute regarding these items. So deducting Rs. 8.72 lakhs from Rs. 93.80 lakhs we get the figure Rs. 85.08 lakhs.

The next deduction to be made is the amount of normal depreciation which is Rs. 11.42 lakhs. Shri Roy Mukherji had no objection to this figure, but Shri Sanyal raised an objection that no depreciation should be allowed on certain items like Patent, Bamboo Forest Block, Furniture and Flotilla mentioned at pages 14 and 15 of the two balance sheets. I understand that Bamboo Forest Block has also a workshop and machineries and garages. There is no reason therefore why normal depreciation should not be allowed in respect of it. The Flotilla is composed of certain motor boats and other boats used as transport. These are certainly subject to depreciation. There is also no reason why the patent or furniture should be excluded from the operation of normal depreciation. So I accept the figure of Rs. 11.42 lakhs for normal depreciation and deducting that figure from 85.08 lakhs we arrive at the figure of Rs. 73.66 lakhs. Income tax at 7 annas in the rupee on this sum will amount to Rs. 32.22 lakhs. The resulting figure is Rs. 41.44 lakhs.

The next item of deduction is the return on share capital. The Company has several kinds of share capital: (1) First Cumulative Preference shares at 8 per cent.; (2) Second Cumulative Preference shares at $4\frac{1}{2}$ per cent.; (3) Preferred ordinary shares at 10 per cent.; (4) "A" ordinary shares; and (5) "B" ordinary shares. The Company has claimed 8 per cent. on the first group, $4\frac{1}{2}$ per cent. on the second group, 10 per cent. on the third group and 6 per cent. on the fourth and fifth groups. The only objection taken was to the return claimed on the third group of preference ordinary shares. But, according to the evidence of the Company's Accountant these shares carry a guaranteed dividend of 10 per cent. by virtue of a resolution of the Board of Directors passed on 7th August 1937. There being thus a contractual obligation to pay dividend at 10 per cent. on these shares the Company is entitled to claim 10 per cent. return on the same. The total sum claimed is Rs. 8.75 lakhs and it is worthy of note that the same sum was claimed and allowed in the previous adjudication regarding bonus for 1950-51 and 1951-52. Deducting Rs. 8.75 lakhs from Rs. 41.44 lakhs we get the figure Rs. 32.69 lakhs.

With regard to the return on working capital, the Company has claimed a huge amount, viz., Rs. 20.34 lakhs at 4 per cent. on a total figure of Rs. 5 crores and Rs. 8.55 lakhs which is made up of several kinds of reserves amounting to Rs. 2 crores and Rs. 5.86 lakhs and depreciation reserves amounting to Rs. 3 crores and Rs. 2.69 lakhs, as shown in Ext. B. The figures of reserves have been taken from the balance sheet of the previous half-year ending on the 31st March 1954 (Ext. P, page 10). The last figure of depreciation reserves has been taken from the column for total depreciation at page 15 of the same balance sheet. The ordinary reserves are: general reserve, reserve for taxation contingencies, reserve for revaluation of stocks and stores, reserve for labour quarters and labour welfare, reserve for plant replacement and development, reserve for dividend equalisation and two other sums amounting to about Rs. 80,000 representing difference in exchange and profit and loss account. Shri Sanyal objected to the reserves for taxation contingencies, for plant replacement and development and for dividend equalisation being treated as working capital. With regard to the reserve for plant replacement and development amounting to Rs. 1 crore and 3 lakhs, he contended that it could not have been available as a reserve but must have been spent in the purchase of new machineries. With regard to the other reserves, he contended that these could not have been used because they had to be kept intact for the purposes they were meant to serve. I am unable to accept these contentions. There is positive evidence in this case of the Accountant of the Company that these were actually used as working capital and that about 2 crores of the accumulated reserves are current assets and not fixed assets available for such use. He also said that this figure had been obtained by deducting from the gross block the total share capital. Being current assets they can be converted into liquid cash and utilised in the business and the evidence being that they were so used, there is no reason why this evidence should not be accepted. It cannot be said that certain reserves must in all circumstances be kept intact and should not be touched even when necessary for

business. I accordingly hold that the reserves amounting to Rs. 2 crores and 5.86 lakhs had actually been used as working capital.

I next come to the amount of Rs. 3 crores and 2.69 lakhs which represent the total depreciation up to 31st March 1954 (page 15 of the balance sheet of the first half-year, Ext. A). The sum has not been described as a depreciation reserve and the Union's contention is that it was a mere book entry. There is nothing to show that it was actually an accumulated reserve fund available for being used as working capital. It is true, as the Supreme Court pointed out in the case of Associated Cement Co. (1959 1, L.L.J. 644) that no distinction should be made between reserves used as working capital and a depreciation fund similarly used but the Supreme Court also held that it was incumbent on the employer to show that the amount under the depreciation fund was in fact available and that it had actually been used as working capital during the relevant year. I cannot say that there is such evidence in this case. The Accountant of the Company has no doubt made a general statement that the entire sum shown as working capital in the Company's statement, Ext. B, was used as such, but he has not stated that this amount of total depreciation, as it is described in the balance sheet, actually constituted a depreciation fund available for being used as working capital. On the other hand he stated, as I have already noted, that only two crores of the accumulated reserves were current assets. He did not claim that these 3 crores were also current assets convertible into liquid cash and capable of being used in the business. If it is not current asset, it would not be available for being used as working capital. Shri Basu contended that even fixed assets could be utilised for the purpose of business by raising loans on the security thereof. But that is not the principle on which return on working capital is allowed. A return on working capital available as liquid fund is allowed on the principle that by utilising that fund the concern can avoid borrowing with the obligation to pay interest. Such return cannot obviously be claimed on fixed assets as distinguished from liquid assets. According to the decision of the Supreme Court in the case of Tata Oil Mills, 16 F.J.R. 349, money converted into such assets as stock in trade and stores will also be available to that extent as working capital subject to adjustments on account of loans, secured or otherwise, but this does not apply to fixed or capital assets.

Thus there is no proof that this sum of Rs. 3 crores and odd constituted a depreciation fund and was available for use or was actually used as working capital. Another significant fact to note in this connection is that no such sum was included in the working capital in the previous adjudication for bonus for the years 1950-51 and 1951-52, as is admitted. No explanation was given as to why it was not included. Shri Basu suggested that it was not included because without it the Company could show then that there was no surplus. This explanation is hardly believable and has not been supported by any evidence. The fact that the Company did not then claim any return on this huge sum as working capital throws doubt on the Company's present case that this sum was available and was actually used as working capital during the year under consideration. In the circumstances I cannot accept the Company's case regarding this so-called

depreciation reserve of Rs. 3 crores and odd. So the only amount of reserves on which return can be claimed is Rs. 205.86 lakhs. I should note in this connection that Shri Roy Mukherji in his statement of calculation of net surplus did not allow any return on working capital on the ground that the Company had failed to make out any case on the point. At the time of argument, however, he conceded that the Company was entitled to return on Rs. 2 crores as working capital. There was some dispute as to what should be the proper return on this amount of working capital, the contention on behalf of the Unions being that it should be less than 4 per cent. But 4 per cent. return was admittedly allowed in the previous adjudication and no reason has been shown why it should be allowed at less than 4 per cent. The general trend at present is in favour of 4 per cent. return on working capital. So allowing 4 per cent. return on the above amount we get the figure Rs. 8.23 lakhs and deducting this from Rs. 32.69 lakhs we get Rs. 24.46 lakhs.

The next question is what amount should be deducted annually for rehabilitation cost of buildings, plants and machineries of the two Mills. In the previous adjudication regarding profit bonus for 1950-51 and 1951-52 it was not disputed that the Company's buildings, plants and machineries required rehabilitation and this was not also seriously disputed before me. Some of the machines, e.g., three paper-making machines, appear to be very old, having been, according to the evidence adduced, set up in 1892 and the Company's Superintending Engineer has stated that these machines require replacement and that the Company is carrying on with them only after considerable changes of their parts and has to carry on simply because it has not the requisite funds to replace them. A new such machine is said to be worth three hundred thousand pounds. It was contended on behalf of the Unions that requisite evidence had not been adduced as to which machineries required replacement and when they had been purchased or when they should be replaced and as to other details. Comment has also been made on the fact that though the Directors' report in the balance sheets referred to a renovation programme, no such programme has been produced. The Superintending Engineer explained that this renovation programme did not contain any details about the replacement of machineries. Even without such detailed evidence, the evidence which has been given contains sufficient materials for arriving at the probable rehabilitation cost of the machineries, there being no question that they require replacement and that the ordinary depreciation allowed is not sufficient for their replacement in view of the great rise in the prices after the War. In the decision of the Supreme Court (1959-11 L.L.J. page 9) the machineries were divided into three blocks, viz., (1) machineries existing on 1st April 1939, i.e., which had been purchased before that date, valued at Rs. 153.43 lakhs, (2) machineries added between April 1939 and March 1947 valued at Rs. 22.41 lakhs and (3) machineries added between April 1947 and March 1952 valued at Rs. 87.27 lakhs. The same division into blocks up to 31st March 1952 has been adopted by the Company before me and the same valuations of the machineries have been maintained. To these a fourth block has been added

consisting of machineries purchased between April 1952 and March 1955 valued at Rs. 48.17 lakhs. It is true that the Company has not produced any papers showing the dates of purchase of the different machines or the actual prices paid for them, but the valuations by block were not challenged and it is possible to calculate the probable rehabilitation cost on the basis of the said values according to blocks and on the evidence adduced regarding the present prices and the probable useful life of the machines.

The main dispute before the Supreme Court turned on the correct multipliers and divisors to be taken in calculating the rehabilitation cost of the three blocks. The Supreme Court took the multiplier 4 for the first block, 2 for the Second block and 1 for the third block on the footing that the prices of the machines had risen 400 per cent. and 200 per cent. between 1939 and 1952 and between 1947 and 1952, respectively, and that there had been no rise in respect of the third block. At the same time it was made clear by the Supreme Court that these multipliers should not be taken as precedents for the future and that it would be open to either party to give evidence in future adjudications in order to vary these multipliers one way or the other. The Unions have urged before me that the same multipliers should be adopted in the present case also as the Company has not been able to produce any better evidence. The Company, has on the other hand, taken the multiplier 3.66 for the first block, 2.16 for the second block, 1.39 for the third block and 1.22 for the fourth block of machineries purchased between April 1952 and March 1955 the value of which is Rs. 48.17 lakhs. These multipliers have been worked out from the price quotations of the machineries used in these mills obtained from foreign manufacturers. These manufacturers quoted the prices of each of these machineries on 31st January 1939, 31st March 1947, 31st March 1952, 31st March 1955, 31st March 1956, 31st March 1957, 31st March 1958 and 31st March 1959 (Ext. E series). From these quotations the Company has prepared a comparative chart (Ext. D) of the prices of the machineries of the different blocks at the relevant dates and worked out the multipliers. The method followed in working out the multipliers was to total up the prices of the machineries of each block as on the last date of the period and also the corresponding prices as in 1959 and divide the second total by the first total.

On behalf of the Unions the prices quoted in Ext. C series have been challenged as unreliable as they were not the actual prices at which the manufacturers were prepared to supply the machines. This argument is based upon a letter (Ext. E) which the Company wrote to its London office. In this letter it was explained that in order to meet the Union's demand for bonus it was necessary to adduce evidence about the suitable multipliers to be adopted for calculating the annual rehabilitation cost and for that purpose the prices of the machines of the different blocks as at the dates already mentioned should be obtained from the manufacturers. Sixteen statements detailing the plant and machinery supplied by various manufacturers in the United Kingdom were attached to this letter and it was requested that the manufacturers concerned should be asked "to mention against each

item the estimated price at the various periods mentioned therein". Then follow these lines in the letter on which the Unions particularly rely: "We appreciate that it may be difficult for them to give the prices of each equipment at various periods. However they could without prejudice give an approximate idea of the prices at various periods and you can assure them that the prices indicated by them will be used only for the purpose of our case before the Tribunal and that we shall not make any reference to those prices in future correspondence with them". The Superintending Engineer of the Company admitted that the manufacturers who had quoted these prices would not be bound by their quotations and that at the time of actual supply they could charge more or less. These prices were thus only approximate and it was, therefore, contended on behalf of the Unions that some allowance should be made on this ground and that the prices quoted should be deemed to have been inflated to some extent. It was suggested that instead of adopting 3.66 it would be safer to adopt 3 as the multiplier for the first block and instead of 2.16 to adopt 2 as the multiplier for the second block. As regards the third and fourth blocks it was suggested that they should be combined into one block with the multiplier 1. Since the prices quoted have not been stated to be the actual prices but estimated or approximate prices and since no evidence has been given as to the actual purchase prices of the existing machineries, I agree that some allowance should be made therefor and to be on the safe side lower multipliers than those claimed by the Company should be adopted. I cannot, however, agree that the correct multiplier should be 3 for the first block. The letter, Ext. E(1), has been referred to by the Unions in this connection which gives the general price increase over immediate pre-war level as more than 300 per cent. It does not, however, justify the multiplier 3 but a multiplier higher than 3. I think that making a 10 per cent. allowance the multiplier should be taken to be 3.30. Making roughly a similar allowance for the second block the correct multiplier should be taken to be 2. For the third block I accept a multiplier of 1.25 and for the fourth block 1.10.

Regarding the divisor, the Company's Superintending Engineer gave evidence that the average useful life of such machineries would be 15 years but he admitted that by repair and replacement of parts such machineries can carry on for several more years as they have been doing. On behalf of the Unions evidence has been given that the machineries can last much longer up to 50 years. But

that evidence is given by workmen like fitters or mechanics who cannot be said to be experts competent to speak on the point, and they also testified to the fact that considerable replacement of parts from time to time is necessary in order to make the machines work. One of them, P.W. 4, Debendra Nath Paramanik, however, admitted that a new machine could last only 20 years without any replacement of parts. A machine may carry on for a longer period with repairs and replacement of parts but such repairs and replacements must necessarily affect its original efficiency and it would also no longer be economic. That is the opinion of the Superintending Engineer who is certainly an expert having had considerable experience of machine manufacture in the firm of James Bertram of Scotland which specialises in paper-making machineries. It is also to be considered in this connection that these machines are worked in three shifts throughout day and night. At the time of argument Shri K. B. Basu did not stick to the 15-year period but conceded that the average useful life of such machinery may be taken to be 25 years and he submitted a chart on this basis adopting the divisor 7 for the first block, 16 for the second block, 20 for the third block and 23 for the fourth block. The Unions also modified their stand and submitted charts taking the average useful life of the machineries to be 30 years. On a careful consideration of the entire evidence I have come to the conclusion that it would be just and proper to estimate the average useful life of these machineries at 25 years instead of 30. As regards the appropriate divisors for the different blocks I cannot agree with Shri Sanyal who suggested the same divisor for all the blocks. Shri Roy Mukherji, however, adopted different divisors for the blocks, but they were based on an average life of 30 years. Taking the average life to be 25 years I accept the Company's divisors, viz., 7 for the first block, 16 for the second block, 20 for the third block and 23 for the fourth block.

With regard to the buildings which have been divided by both parties into two blocks—the first block consisting of the buildings existing on 31st March 1947 and the second block of buildings constructed after that date, there is no dispute that the proper multiplier for the first block should be 2.5 and that for the second block 1. The Supreme Court adopted the same multipliers. As to the divisor the Company has adopted 27 for both the blocks, according to the decision of the Supreme Court. Shri Sanyal has suggested the divisor 50 for both the blocks and Shri Roy Mukherji has

suggested the divisor 27 for the first block and 40 for the second block. There is no reliable evidence on the side of the Unions that the average life of such buildings should be taken to be 50 years. A mason gave evidence and said that such buildings would last 80 years. Obviously such evidence cannot be accepted. According to the Superintending Engineer, the machines which work day and night cause considerable vibrations in 75 per cent. of the buildings which must necessarily affect their life.

It is also in evidence that some of the buildings have corrugated iron or asbestos roofing. Since, however, the divisor for the pre-1939 block has been taken to be 27 I think that it would not be wrong or unfair to adopt the divisor 40 for the subsequent additions, as Shri Roy Mukherji has done. Now working out the figures of annual rehabilitation cost on the basis of the above multipliers and divisors we get the following result:—

	Original cost in lakhs of rupees.	Multiplier.	Total in lakhs of rupees.	Divisor.	Annual require- ment in lakhs of rupees.

For buildings the Company's total figure is Rs. 2.84 lakhs which is less than Shri Roy Mukherji's figure of Rs. 3.06 lakhs, though Shri Roy Mukherji has adopted the multiplier 40 for the second block. This is because the Company did not by mistake include the value of the Railway sidings in its calculation. The railway sidings should also be included and so I accept Shri Roy Mukherji's figure of annual rehabilitation cost for the building and railway sidings. Adding Rs. 3.06 lakhs to the above figure of Rs. 40.83 lakhs we arrive at the figure Rs. 43.89 lakhs. From this a sum of Rs. 9.96 lakhs should be deducted as depreciation for the year. The resulting figure is

Rs. 33.93 lakhs and this is higher than the figure of net surplus already arrived at after deduction of other prior charges, the figure being Rs. 24.46 lakhs. In the circumstances I must find that there is no available surplus from which any bonus can be given to the workmen.

This result was not unexpected because the profits of the Company were much less in this year than in normal years. While the profit for the second half-year was Rs. 61.87 lakhs, that for the first half-year was only Rs. 28.21 lakhs. This diminution of profit was due to a strike for three months in one of the Mills and for 15 days in the

other. The Company's case is that the strike was illegal and unjustified. If so, the workmen themselves are responsible for there being no surplus left for payment of bonus.

I accordingly award that the workmen are entitled to no profit sharing bonus for the year 1954-55.

Whereas under the Government of West Bengal, Labour Department, order No. 3757-I.R./IR/111-175/58, dated the 4th August 1959, the industrial dispute between Messrs. Don Watson & Co. (P) Ltd., 19 British Indian Street, Calcutta and their workmen represented by Don Watson & Co. ANNEXURE

In the matter of an industrial dispute between Messrs. Don Watson & Co. (P) Ltd., 19 British Indian Street, Calcutta and their workmen represented by Don Watson & Co. Employees' Union, 23A Netaji Subhas Road (Top Floor), Calcutta-1. (Case No. VIII-C-224/59.)

Government of West Bengal, Labour Department, by their order No. 3757-I.R./IR/111-175/58, dated Calcutta, the 4th August 1959, referred

an industrial dispute between Messrs. Don Watson & Co. (P) Ltd. and their workmen represented by Don Watson & Co. Employees' Union, to the Second Labour Court for adjudication regarding the matter mentioned in the order of reference.

Issue

Whether retrenchment of the following workmen is justified. To what relief, if any, are they entitled? (1) Shri Achuta Nanda Das, (2) Shri Sailendra Nath Das, (3) Shri Murari Mohan Bhattacharya, (4) Shri Muralidhar Paridha.

AWARD

The company has raised a preliminary objection that the present case is not an industrial dispute on the ground that the dispute mentioned in the order of reference has not been supported by a majority or a substantial portion of the employees of the Company. The Company has filed a petition to that effect. The petition is supported by an affidavit filed by one Shri Anil Chandra Mukherjee claiming to be the Secretary of the Don Watson & Co. Staff Association. That affidavit is again supported by a statement of 26 persons claiming to be the employees of the Company. In that statement they say that they do not support the dispute mentioned in the order of reference. Shri Anil Chandra Mukherjee has stated in his affidavit that the total number of employees of the Company is 31.

The Union has, on the other hand, asserted by means of an affidavit filed by the Secretary of the Union that the present dispute is an industrial dispute. In that affidavit the Secretary of the Union has controverted some of the assertions made by Shri Anil Chandra Mukherjee in his affidavit, but the Secretary of the Union is silent about the statement of 26 persons claiming to be employees of the Company. The Secretary does not also say that the statement of Shri Anil Chandra Mukherjee to the effect that the total number of employees of the Company is 31 is untrue. So the natural inference is that the Union accepts the contention of the Company that the Company has 31 employees of whom twenty-six do not support the present dispute.

It is now a settled law that a dispute between a person or a number of persons and their employer is primarily an individual dispute. It can however turn into an industrial dispute, if their case is espoused by a majority or at least a substantial portion of the employees of the employer concerned. In this case it has been established by the affidavits of both sides and the connected papers that only 5 employees out of thirty-one support the dispute mentioned in the order of reference. This number cannot, by any stretch of imagination, be called a substantial portion of the employees. So I hold that the essential factor converting a dispute into an industrial dispute is absent in the present case. So I hold that the reference made by Government in the above order does not involve an industrial

dispute. Hence I do not enter into the merits of the issue.

Appearances:

For the Union: Shri P. K. Sanyal, Advocate.

AWARD

By Government order No. 2244-L.R./IR/SL-22/59, dated the 24th May 1959, a dispute between Messrs. Kanoria Industries Ltd. (hereinafter referred to as the "Company"), and their workmen, represented by Kanoria Industries Employees Union (hereinafter referred to as "the Union") has been referred to this Tribunal for adjudication.

The following issues have been framed by Government:—

- (1) Grades and scales of pay for all categories of workmen.
- (2) Dearness allowance.
- (3) Gratuity.
- (4) Leave and holidays.
- (5) Permanency of workmen.

The relevant facts relating to each issue will be recounted in connection with the discussion of the same.

At the outset, it is to be observed that the learned representative of the Union has intimated to this Tribunal at the opening of the case that none of the issues will be pressed in this dispute so far as the same concern the clerical staff of the Company and he has filed a petition accordingly. Necessarily, the award that is to be passed regarding these issues will be operative so far as the workers only of the Company's factory are concerned.

DECISION

Issue Nos. 1 and 2: These two issues are taken up together for the sake of convenience.

The Union's prayer in the written statement is that the Company should be asked to pay the workmen of the different manufacturing sections their basic wages as provided for in the award of the Second Cotton Textile Tribunal, and also to pay the Mistries of different types their basic wages and to introduce pay-scale as detailed in the charter of demands (which is Annexure A to the written statement) and also to ask the Company to pay Rs. 32-8 per month as dearness allowance to all workmen.

Here, it is to be mentioned that the award of the Second Cotton Textile Tribunal was published in the "Calcutta Gazette, Extraordinary", dated 10th June 1958, at page 2029, and it was passed in an omnibus reference of several items of disputes between most of the Textile Mills in West Bengal including composite mills, purely spinning mills and powerloom factories on the one side and their workmen on the other. The Company in the instant case was not a party to that reference. Almost all the issues framed in this case were amongst the issues framed by Government in the said Omnibus reference. The Company has stated in its written statement that the demands of the Union regarding grades and scales of pay either according to the Second Cotton Textile award or according to the charter of demands, cannot be allowed either fully or partially, in view of the fact that the factory has started functioning only from the year 1956; it is still in its infancy; and since its starting, it has been incurring substantial loss and is an uneconomic unit; further, it is only a spinning mill and not a composite mill.

The balance-sheets of the Company for the years 1956, 1957 and 1958 will show that the Company is running at a loss all along. In view of this fact, the learned representative of the Union does not press its demands regarding wages, dearness allowance, grades and scales of pay, as provided for in the said Second Cotton Textile Award; but

he has urged the point that the minimum basic wage of the workers should not be less than what has been awarded in the said Second Textile award and the dearness allowance also should not be less than the minimum provided for in that award. Now, it is a fact that the Second Cotton Textile award provides for small and uneconomic units of textile mills the minimum basic wage was Rs. 28.17 nP. per month and dearness allowance at the rate of Rs. 32.50 nP. per month to all workers in such units. The learned Judge who passed that award fixed the rates of minimum basic wage and dearness allowance after elaborate discussion of all relevant factors in that connection which need not be reproduced in this award as that will be nothing but superfluous. The learned representative of the Company in this case has been asked as to whether he is in a position to establish that the aforesaid minimum basic wage and dearness allowance are not the minimum but will be something less than that. He has not been able to do so evidently because the minimum fixed in the said award appears to be only possible minimum that could be worked out under the prevailing facts and circumstances.

It is now a well-settled principle that an employer must give his employees the minimum basic wage and the minimum dearness allowance to supplement it, for the bare subsistence of his employee and if he cannot do so, his concern has no right to exist. In view of this principle, the Company, in the instant case, though it is at present a losing concern, must pay its employees the minimum basic wage and dearness allowance as laid down in the said Award.

It is a fact that some of the workers of the Company are getting less basic wage than the aforesaid minimum and also the dearness allowance is paid at a flat rate of Rs. 30 to all workers; so, in view of the said minimum fixed by the aforesaid award for uneconomic units, the basic wage of such workers of the Company as are getting less than the minimum of Rs. 28.17 nP. per month should be pulled up to Rs. 28.17 nP. per month and dearness allowance shall be paid to all workers at the rate of Rs. 32.50 nP. per month and the basic wage of the workers who are getting more than the aforesaid minimum shall remain as before. This directive regarding the wage and dearness allowance shall be operative with effect from 1st January 1960.

In the Second Cotton Textile award the female workers were awarded less dearness allowance than the male workers in view of the fact that the employers had to bear an additional burden on account of maternity benefit and other welfare measures which they are bound to take for the female workers. The actual amount of dearness allowance for the female workers was fixed in the said award at Rs. 24.38 nP. per month; so, the provision of dearness allowance made for the workers in this award shall be subject to the condition that the female workers will get Rs. 24.38 nP. per month as dearness allowance instead of Rs. 32.50 nP.

Issue No. 3: The Union claims one month's total pay for each year of service as gratuity. At

the time of the hearing, it has been intimated on behalf of the Company that a Provident Fund Scheme has been introduced in its factory in 1959 in pursuance of the provision of the Employees Provident Fund Act; and so, it is not in a position to pay any gratuity to the workers as claimed in view of its present financial condition. This contention of the Company is held to be reasonable. For the present no provision for gratuity as claimed by the Union is made. However, it will be at liberty to raise this claim in future regarding gratuity for all workers, whether their periods of service has commenced prior to the introduction of the Provident Fund Scheme or thereafter.

Issue No. 4: The Company maintains that leave as provided for in the Factories Act is being allowed to the workers. This is not denied on behalf of the Union, but it presses for sick leave with full pay for 15 days per year. It is contended on behalf of the Company that if this be allowed it will impose an additional pecuniary burden which it is not in a position to bear in view of its present uneconomic condition. Further, it is contended on behalf of the Company that the provisions of the Employees' State Insurance Act are to be soon applied to its factory. But the Company has admitted in its written statement that sick leave is allowed to workmen in suitable case. Also, it is to be observed that in the Second Cotton Textile award sick leave was provided for workers of all concerns whether economic or uneconomic; so, it is thought desirable that some provisions for sick leave of the workers of this Company should be made by this Tribunal till the provisions of the Employees' State Insurance Act are made applicable to the Company's factory. Hence, it is awarded that workers will get sick leave with full pay for 15 days in a calendar year and it is to be allowed on the strength of a medical certificate from the Medical Officer of the mill or from a Registered Medical Practitioner. Workers who will not avail of any portion of the sick leave during the year shall get the wages for such unavailed portion of the sick leave. But this part of the award will stand entirely superseded on and from the date on which the provisions of the Employees' State Insurance Act will be applied to the Company's factory.

As regards holidays, it is common ground that the Company allows nine holidays with full pay as provided for in the Second Cotton Textile Award. So, it is awarded that the Company will continue to grant nine days' festival holidays with full pay as at present.

Issue No. 5: The Union's demand is that all workmen should be made permanent after they work for three months. The Company's reply on this point cannot be clearly understood from its written statement. At the time of the hearing, it has been conceded on behalf of the Company that it has no certified Standing Orders. So, some provisions should be made in the award regarding the permanency of the workers. In this matter, the West Bengal Government has published some model Standing Orders in the "Calcutta Gazette", dated 28th January 1960, at page 369 by way of amendment to the Bengal Industrial Employment

(Standing Orders) Rules, 1946. In view of the provisions made by this amendment, it is awarded that only a workman who is provisionally employed to fill a permanent vacancy in a post shall be made permanent after satisfactory completion of his probationary period of 6 months and this period shall include breaks due to sickness, accident, leave, lock-out, strike (not being an illegal strike) an involuntary unemployment. This part of the award shall not apply to any other type of workmen, namely, "Badlis", "temporary", "casual", "apprentices" and shall be superseded entirely as and when the Company shall have its own statutory standing orders.

This is the award of the Tribunal.

ANNEXURE

In the matter of an industrial dispute between Messrs. Electric Lamp Manufacturers (India) Private Ltd., 1 Taratolla Road, Garden Reach, Calcutta-24 and their workmen represented by Electrical Lamp Workers' Union, J-535 Paharpur Road, Calcutta-24. (Case No. VIII-C-215 of 1958.)

BEFORE THE SECOND LABOUR COURT,
WEST BENGAL

Present:

Shri HEM RANJAN DEB, Presiding Officer,
Second Labour Court.

By Order No. 3952-I.R./IR/10L-96/58, dated Calcutta, the 18th September 1958, Government

of West Bengal, Labour Department, referred an industrial dispute between Messrs. Electric Lamp Manufacturers (India) Private Ltd. and their workmen represented by Electrical Lamp Workers Union to the Second Labour Court, for adjudication regarding the issue mentioned in the order of reference.

Issue

Whether the dismissal of Shri Bhupendra Giri and Shri Aditya Mukherjee is justified. To what relief in the way of reinstatement and/or compensation are they entitled?

After the hearing of the case was over, the Union filed a petition stating that it would not proceed with the case in respect of Shri Aditya Mukherjee on the ground stated in the petition and prayed that a "no dispute" award may be given in respect of Shri Aditya Mukherjee. So I hold that there is no industrial dispute between the Company and Shri Aditya Mukherjee. As regards Shri Bhupendra Giri, both sides have introduced certain matters which are not strictly relevant to the merits of the case.

The relevant allegation of the Union may be briefly stated as follows:—

The relation between the Company and its employees have remained strained since 1951. There have been several instances which have embittered the relation between the Company and its employee. The latest of those incidents took place in June 1958. There was a long standing practice in the Company to the effect that machines would be stopped 15 minutes before the closing time on pay days and 5 minutes before the closing time on other days. 5th June 1958 was such a pay day. On that day the workers stopped the machines at 7.45 p.m., i.e., 15 minutes before the closing time which was 8 p.m. A high officer of the Company asked the workmen to start the machines again but the workmen refused to do so unless a notice was put up to that effect, as they were not willing to deviate from the long standing practice. The Company seized this opportunity, and charge-sheeted and suspended six workmen from the very next working day. Shri Bhupendra Giri and Shri Aditya Mukherjee were amongst those six workmen. The Company purported to hold an enquiry into those charge-sheets and punished them by suspending them for four days without pay. The punishment was intimated to them on 25th June 1958. On 2nd July 1958 the representatives of the employees on the Works Committee resigned as a protest against the uncompromising attitude of the Company on certain matters. The Company took it to be an insult and five days later, i.e., on 7th July 1958 the Company issued charge-sheets to Shri Bhupendra Giri and Shri Aditya Mukherjee alleging that they had assaulted a temporary workman named Shri Anil Kumar Hati. The Company afterward held a stage-managed enquiry and dismissed the two workmen in due course. The Union contends that the dismissal is mala fide, malicious and is an extreme instance of victimisation.

The Company has denied the allegation of victimisation. Its case, in brief, is as follows:

When Shri Bhupendra Giri and some workers were suspended in June 1958, Shri Anil Kumar Hati was one of the workmen who did the work of

the above workmen. So one day at Kidderpore Shri Bhupendra Giri and Shri Aditya Mukherjee asked Shri Anil Kumar Hati not to do their work and to go on medical leave and threatened to teach him a lesson if he did not comply with their request. Actually Shri Anil Kumar Hati did not comply with their request. Out of that grudge on 6th July 1958 after the closing of the factory when Shri Anil Kumar Hati and another worker named Shri Baidya Nath Chatterjee reached the crossing of Taratola Road and the lane leading from the factory to that road, Shri Bhupendra Giri and Shri Aditya Mukherjee and another person called him. He went to them. Shri Bhupendra Giri and Shri Aditya Mukherjee caught his two hands and the third man cropped his hair with scissors. Shri Anil Kumar Hati filed a complaint to the Manager of the Company on the following day and accordingly a charge-sheet was issued to Shri Bhupendra Giri. Thereafter the Company held an enquiry in presence of Shri Bhupendra Giri. At the enquiry Shri Nitin Kumar Bose, Joint Secretary of the Works Committee and Shri A. R. Paul, another employee of the Company, were present as neutral witnesses, and Shri Amritlal Pathak, another workman of the Company, was present at the instance of Shri Bhupendra Giri. Shri Bhupendra Giri was given full opportunity to defend himself at the enquiry. After the enquiry, the Enquiry Committee consisting of three members came to the finding that Shri Bhupendra Giri was guilty of the charge brought against him. In accordance with the finding the Company dismissed him. So the Company contended that the dismissal is justified.

Appearances of the parties are as follows:—

For the Company: Shri J. N. Chatterji, Assistant Labour Adviser of Messrs. Indian Engineering Association assisted by Shri Monoranjan Roy, Personnel Manager of the Company.

For the Union: Shri Narayan Das Gupta, Secretary of the Union.

Decision.

Though the Company has asserted that the relation between it and its employees has always been cordial, evidence, both oral and documentary, adduced before me shows that this is untrue. There have been occasions when the relation between the Company and its employees has been strained. The situation reached a climax in June 1958. But though the relation between the Company and its employees has not been good, there is no evidence before me to show that the Company selected Shri Bhupendra Giri for victimisation. There is no evidence that the Company had any extraneous reason to be annoyed with Shri Bhupendra Giri. So I hold that the allegation of victimisation made by the Union fails. It is clear from the evidence that the enquiry was properly held. So no question of violation of natural justice arises in this case. So my jurisdiction is confined to a consideration as to whether the finding of the Enquiry Committee is supportable.

Before me the Union has adduced evidence to suggest that the allegation of assault on Shri

Anil Kumar Hati, for which Shri Bhupendra Giri has been dismissed, is improbable. The Union has drawn my attention to certain factors relating to the alleged incident. Some of them are:

- (i) the place of the alleged occurrence is a busy centre;
- (ii) there are police camp and quarters in the close vicinity of the place of the alleged occurrence;
- (iii) the incident, if any, ought to have been noticed by many persons;
- (iv) Shri Bhupendra Giri and his companions could not select such a place for the incident.

I also find a perusal of the proceedings of the enquiry that the Enquiry Committee did not assign any reason why they disbelieved the evidence of the witnesses proceed at the enquiry on behalf of Shri Bhupendra Giri. It is also not clear from the proceedings of the enquiry as to how Shri Anil Kumar Hati could know that the name of the third person was Shri Bijoy Sanyal. All these considerations naturally lead to the inference that the finding of the Enquiry Committee is not based on sure grounds. I may go further and say that if the evidence adduced at the enquiry were adduced before me as a Criminal Court for determination as to whether Shri Bhupendra Giri was guilty of assaulting Shri Anil Kumar Hati, I would have given him a benefit of doubt. But it is a settled law that my jurisdiction here is not that of a trial court. This has been pointedly enunciated by the Hon'ble Supreme Court in its decision in the case of Balipara Tea Estate versus its workmen reported in XVI F.J.R., page 203. Therein the Hon'ble Supreme Court has held that the Tribunal has misdirected itself in so far as it has judged the case against the workman concerned afresh on its merits as if it were a trial in a criminal offence for the falsification of accounts and misappropriation of funds and that in so doing, the Tribunal was sitting as a Court of Appeal on the order of dismissal passed by the management, even though it did not find any malafides or want of good faith or any irregularity in the proceedings taken by the management against the workman concerned. The Hon'ble Supreme Court has further held that the Tribunal misdirected itself in so far as it insisted upon conclusive proof of guilt to be adduced by the management in the enquiry before it. The Hon'ble Supreme Court has also held that it is well settled that a Tribunal has to find only whether there was justification for the management to dismiss an employee and whether a case of misconduct had been made out at the enquiry held by it. The present case is on all forms with the above case. In the present case, as I have held above, though I might not have taken the decision taken by the Enquiry Committee, I cannot say that the finding of the Enquiry Committee is perverse. So I hold that in circumstances of the case I have no authority to set aside the finding of the Enquiry Committee. Hence I hold that the dismissal of Shri

Bhupendra Giri is justified. As such he is not entitled to any relief.

ANNEXURE

In the matter of an application under section 33A of the Industrial Dispute Act filed by Shri Jamaluddin and others against their employer Messrs. India Cycle Manufacturing Ltd. in connection with the Government order No. 6353-I.R., dated 24th November 1959. (Case No. 70 of 1960.)

BEFORE THE FOURTH INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri K. K. MITRA, Judge, Fourth Industrial Tribunal.

For the Company: Shri S. C. Sen, Advocate.

For the Union: Shri A. K. Dutta with Mrs. H. K. Dev Barman and assisted by Shri Rajani Mukherjee.

This is a complaint under section 33A of the Industrial Disputes Act filed by 132 workmen alleging violation of the provisions in section 33 of the Act and claiming full wages for the period covered by the notice as to lay-off, dated 22nd December 1959. They also pray that the Tribunal shall direct immediate withdrawal of the notice as to lay off and thus permit the workmen to resume work.

The Company challenges the maintainability in law of the complaint case.

The workmen in paragraph 5 referred to the notice, dated 22nd December 1959, extending the period of lay off and mentioned therein that the notice is made annexure A. Unfortunately no such annexure was filed along with. The said notice was however filed at the time of hearing. The said notice sums as follows:—

In continuation of our notice, dated 2nd November 1959, laying off 473 workmen it is hereby further notified that the said lay off is extended for the appended list of workmen with effect from 24th November 1959 until further order.

I take it as proved that the serial list so appended covered the case of these 132 workmen.

Admittedly, the main dispute was referred to this Tribunal by orders, dated 24th November 1959. Issues 3 and 4 of the order relate to the justification of lock-out from 17th October to 1st November 1959 and lay-off effected from 2nd November 1959 and the relief to which the workers are entitled. The orders as to laying off 473 workmen was passed on 2nd November 1959, i.e. prior to the Order of Reference on 24th November 1959. From the allegations in paragraphs 3 and 4 of the written objections which are admitted by the employer they lifted the lay-off for the rest of the workmen, barring these 132 workmen in several instalments, starting from 14th November 1959. These workmen insist that they should also be allowed to resume work and there is no need for keeping them laid-off any further. That is obviously, a point already covered in Issue No. 4 of the

Order of Reference. Here, I am concerned to see if any alterations in the conditions of service in regard to any matter connected with the dispute took place at the instance of the employer during the pendency of the proceedings. I think when the lay-off took place before the pendency of the proceedings, a mere extension of the period by the notice did not create any alteration in the condition of service as applicable before the commencement of the proceeding on 24th November 1959. Besides, the question of justification of lay-off is already a matter pending decision in the main reference.

Certainly, within the scope of that issue it would be considered and decided, what relief the workmen thus laid-off are entitled to. It cannot at the same time be urged that the employer has no right to lay-off the workmen at any time. The justification as to lay-off has got to be decided with regard to the reasons behind advanced by the employer and upon that would follow the relief to be given to the workmen thus affected. I thus find that the employer did not violate the provisions of section 33 by issue of the notice as to extending the period of lay-off with respect to 132 workmen, as they were laid-off before the commencement of the proceedings and there arose no new ground, changing alteration in condition of service, considered in the background of the condition of service so applicable before the commencement of the proceedings. I also find incidentally that lay-off by itself is not a violation of condition of service as the employer has got the right to lay-off, in appropriate cases, the workman, subject to payment of compensation.

The complaint is thus found not maintainable in law.

AWARD

By Government order No. 1749-I.R./IR/10L-67/59, dated the 28th April 1959, a dispute between Messrs. Braithwaite & Co. (India), Ltd. (hereinafter referred to as the Company), and their workmen represented by the Braithwaite Sramik Union (hereinafter referred to as the Union), was referred to this Tribunal for adjudication.

The issues framed by Government are—

- (1) What should be the working hours of Drivers, Bearers and Durwans?
- (2) Whether they are entitled to overtime wages for work beyond the scheduled working hours. If so, what should be the rate?

The facts relating to the issues will be recounted in course of the discussion in respect thereof, and the issues are being taken up for decision one by one.

Issue No. 1: In its written statement, the Union has not stated what is the prevalent working hours of the categories of workmen mentioned in this issue. From the written statement of the Company as well as from a Chart (Ext. A) proved to have been collected from its record by its Chief Personnel Officer (O.P.W. 1) it appears that the number of drivers is 20 including car drivers and lorry drivers; the duty hours of the drivers attached to the personnel in the factory are from 6-30 a.m. to 5 p.m. on weekdays and 6-30 a.m. to 1 p.m. on Saturdays and the duty hours of those attached to the personnel in the office are from 8 a.m. to 6 p.m. on weekdays, and 8 a.m. to 2 p.m. on Saturdays, and all drivers have Sundays off.

The number of bearers is 55, some of whom are attached to the personnel in the factory and some

to the personnel in the office; the former have to work 48 hours per week normally, and the latter 40 hours per week normally.

It is further stated in the statement of the Company that there are 7 time-office bearers. It is not clearly stated whether these time-office bearers are included in the category of bearers attached to the personnel in the factory and/or of bearers attached to the personnel in the office.

There are 46 durwans who have to work 48 hours a week. At the time of the hearing of the case, both parties are agreed that none of the workmen involved in this case come within the purview of the Factories Act, or of the West Bengal Shops and Establishments Act, 1940. So, the question of their normal hours of duty is to be determined with an eye to fairness and reasonableness. The existing hours of duty of some peons and of durwans are 48 hours per week. These can by no means be held as unfair and unreasonable, because the normal hours of work of workmen governed by the Factories Act is 48 hours per week, while that of workmen governed by the Bengal Shops and Establishments Act are 10 hours a day. Hence, there should be no change in the existing hours of work of the durwans or the bearers.

As regards the drivers, it has been proved by O.P.W. 1 that they ordinarily bring the officers from their residences in the morning and take them back in the evening and during interval they have not to do any work excepting that they are occasionally required to go to the Bank. In view of this evidence, it cannot be held that the hours of duty of the drivers as have been mentioned above are unfair or unreasonable.

As a result, it is decided that, as at present, the hours of duty of the drivers attached to the personnel in the factory will be from 6-30 a.m. to 5 p.m. on weekdays and 6-30 a.m. to 1 p.m. on Saturdays and they will all have Sundays off. The bearers attached to the personnel in the factory will have to work 48 hours per week, while those attached to the personnel in the office will have to work 40 hours per week, and the normal hours of duty of the durwans will be 48 hours per week. The working hours of other peons, if any, will be 48 hours a week.

Issue No. 2: From Ext. A, it will appear that the drivers are paid annas four extra for overtime duty done before or after their duty hours and they are paid Rs. 1-8 extra for duty on Sundays and holidays, if required; no bearer is paid overtime allowance as none has to work overtime, except seven time-office bearers who work $4\frac{1}{2}$ hours more per week for punching cards and are paid Rs. 5 per month as allowance; and all durwans have to work 18 hours extra per month on checking duty by rotation and are paid Rs. 3 each as allowance for overtime work. In this case, the Union has claimed double the wages as overtime allowance for each hour of duty in excess of the scheduled working hours. The Company's answer to this demand is that all these workmen are paid basic wages and Dearness Allowance according to the direction of an award and the Company, as a gesture of goodwill, gives them the benefits of production bonus, though they are not entitled to claim any bonus on that head; further, all these

workmen enjoy sick leave of 14 days with full pay and privilege leave of 14 days with full pay also, excepting the durwans, the rest of these workmen enjoy the usual festival holidays. In other words, the Company means to say that in view of the aforesaid amenities the overtime allowance now being paid to them for extra work should be regarded as fair and reasonable.

Now, the extra allowance paid by the Company to the different categories of these workmen when worked out is barely equivalent to their single hourly wage. There is no material on the side of the Company showing that these workmen get any special concession or amenities which other workmen of the factory or the office do not get. It has been contended by the Company that production bonus is given to these workmen as a matter of bounty. The question of production bonus being not in issue either directly or indirectly in this case it is not necessary to decide whether these workmen get production bonus as a matter of bounty or as a matter of right along with the other workmen of the factory. However, the Company would do well not to detract from this alleged bounty, if really bounty it is, by pleading that these workmen should not claim their proper overtime wages in view of the same.

It is now a well settled principle in industrial disputes that normally a workman should not be asked to do overtime work and if he be so asked he should be paid sufficient recompense for such overtime by way of extra allowance besides his normal wages. This principle is based upon some obvious factors. Everyone who does any kind of service whether his emoluments be high or low feels very much disgusted if he is to work beyond prescribed hours. Almost all employees of all categories and in all spheres of employment feel somewhat restless and jittery if they are to do overtime work. The reason is that a person doing service under an employer (though he may have accepted the service in his own interest, namely, for earning his daily bread) puts himself under certain restraint regarding his freedom of movement and action so long as he has to do his duty during the prescribed hours. If such restraint is imposed beyond the prescribed hours of duty, naturally the employee would have a psychological reaction. Moreover, industrial workmen would require additional nourishment for doing work beyond the prescribed hours. Though the employer (like the Company in the instant case) provides the workmen with food or tiffin free or at concession rates that is meant for sustenance of the workmen during the normal working hours and not during any period of overtime work. So, a workman who has to work overtime and has to provide for additional nourishment is to spend his own money for the purpose. Thus, such a workman should be recompensed for the additional expense he is expected to incur for the additional nourishment for sustenance during the period of overtime work, as well as there should be some recompense for the aforesaid mental reaction he is to undergo for doing such work. Also, provision for overtime wages may act as a deterrent to the employer's propensity (if there be any) to have his establishment under-staffed and to get his work done by making the inadequate staff labour overtime.

In the written statement, the Union has claimed double the wages as overtime allowance, but at the time of hearing the learned representative of the Union has suggested that the workmen in this case should be paid at least one-half times of their normal wages as extra wages for overtime work on working days. This suggestion is not at all unreasonable and is therefore accepted. On behalf of the Company, its learned representative has made out a special plea regarding the drivers; he has said that the existing rates of overtime regarding them should be maintained in view of the fact that they have not to do much work during their normal hours of duty, but it is to be observed that this particular consideration has prevailed in fixing their normal hours of duty which are 60½ hours a week in cases of some and 56 hours a week in cases of others; if they be again asked to do overtime work beyond these hours and are not properly paid for the same that would be doing injustice to them. They cannot be made to suffer doubly, only because, during their abnormally long hours of duty, they have not to work continuously, which is not due to any fault of their own, but, evidently to the fact of the Company's not having sufficient work to keep them fully engaged.

As a result, it is awarded that all the workmen concerned in this case would get 1½ (one and a half) times of their normal wages as overtime allowance for overtime work on working days; the unit of calculation of such overtime wages will be an hour and part of an hour will be regarded as a full hour; such hourly wages will be calculated by dividing their monthly wages by the total normal working hours in a month. Wages in this connection will include only basic wage and dearness allowance. If a workman has to work on Sundays or holidays he will get double of his normal wages as overtime allowance which is to be calculated on the basis just now stated.

This is the award of the Tribunal.

No. 959-I.R./IR/11L-564/58.—5th March 1960.
—Whereas under the Government of West Bengal Labour Department, order No. 595-I.R./IR/11L-564/58, dated the 18th February 1959, the industrial dispute between Messrs. J. B. Company, 42 Pathuria Ghata Street, Calcutta-6, and their workmen represented by the Burrabazar Jamadar Sangh, 90 Lower Chitpur Road, Calcutta-7, regarding the issues mentioned in the said order being matters specified in the second schedule to the Industrial Disputes Act, 1947 (XIV of 1947), was referred for adjudication to the Second Labour Court;

And whereas the said Second Labour Court has submitted to the State Government its award on the said industrial dispute;

ANNEXURE

In the matter of an industrial dispute between
Messrs. J. B. Company, 42 Pathuria Ghata
Street, Calcutta-6, and their workmen represented by the Burrabazar Jamadar Sangh, 90

VIII-C-57 of 1959.)

Present:

Shri HEM RANJAN DEB, Presiding Officer,
Second Labour Court.

Appearances:

For the Company: Shri N. M. Das Gupta,
Advocate.

For the Union: Shri Lenin Roy, Advocate.

By order No. 595-I.R./IR/11L-564/58, dated Calcutta, the 18th February 1959, Government of West Bengal, Labour Department, referred an industrial dispute between Messrs. J. B. Company and their workmen represented by the Burrabazar Jamadar Sangh, to the Second Labour Court for adjudication regarding the issue mentioned in the order of reference.

Issue

Whether the dismissal of Sarvashri Misri Singh and Hiralal is justified. To what relief are they entitled?

The Company has stated in its written statement that Shri Hiralal has since been re-employed by it. The Union does not question this statement of the Company and is not willing to proceed with the case of Shri Hiralal. So I hold that there is no dispute as regards the dismissal of Shri Hiralal. As to the dismissal of Shri Misri Singh, Shri N. M. Das Gupta, Advocate, appearing for the Company, has raised a preliminary objection that the dismissal does not involve an industrial dispute. Shri Lenin Roy, Advocate, appearing for the Union, resists the above contention of Shri Das Gupta. The argument of Shri Roy rests on his contention that this court has no jurisdiction to enter into the question whether the reference made by the Government is valid or not. His contention is correct. Nevertheless I am certainly entitled to decide whether what has been referred to me for adjudication is an industrial dispute or not. The case of the Union is that after the dismissal of Shri Misri Singh on 1st March 1958, the Conciliation Officer held a joint conference on 24th March

1958 and a settlement was arrived at; that according to clause 5 of the memorandum of that settlement the Company confirmed that Shri Misri Singh was not discharged and he should join his work; and that the Company eventually refused to employ him. So on the statement of the Union itself this is a case of violation by the Company of a term of settlement. Shri Roy for the Union has argued that before the present reference a dispute was raised before the Conciliation Officer who failed to settle it and hence the present reference. But the papers filed by Union show that what was brought to the notice of the Conciliation Officer before the present reference was not a dispute but the refusal of the Company to comply with a term of the settlement. In such a circumstance it was the clear duty of the Conciliation Officer to take steps for the enforcement of the settlement. However that may be, a violation of any term of settlement by any party to that settlement does not create an industrial dispute. There are provisions in the Industrial Disputes Act for the enforcement of such settlement. So though there was a dispute about the dismissal

of Shri Misri Singh up to 24th March 1958, that dispute was settled on that date. Since that dispute was settled on that date, it cannot be held that the dispute still subsists. Hence I hold that the dismissal of Shri Misri Singh does not involve any industrial dispute at present. So I have no jurisdiction to enter into the question whether the dismissal is justified or not.
